1.0 INTRODUCTION

The NEP 2020 is one of the major education frameworks after the NEP 1986. The policy aims to provide not only universal education but also quality education by imparting language and skill developments through its new course of lessons. The NEP 2020 plans to completely alter the structure of traditional education in India. It plans to transform the elementary education by introducing several reforms and changes in the policy of education and Pedagogical Development in Elementary Education in India Under NEP 2020 International Journal of Research - GRANTHAALAYAH 80 The National Educational Policy 2020 replaces the educational structure of (10+2+3) Laid down by the Kothari Commission in 1964. It reintroduces a new pedagogical structure of education and curriculum in the form of (5+3+3+4).

OVERVIEW OF NATIONAL EDUCATIONAL POLICY 2020

The NEP 2020 is one of the major education frameworks after the NEP 1986. The policy aims to provide not only universal education but also quality education by imparting language and skill development through its new course of lessons. The NEP 2020 plans to completely alter the structure of traditional education in India. It plans to transform elementary education by introducing several reforms and changes in the policy of education. Aithal & Aithal (2020)

The National Educational Policy 2020 replaces the educational structure of (10+2+3) laid down by the Kothari Commission in 1964. It reintroduces a new pedagogical structure of education and curriculum in the form of (5+3+3+4). The National Education Policy has reconfigured the curricular and pedagogical structure of school education according to the relevant developmental needs and interests of learners at different stages of their development, corresponding to the age ranges of 3-8, 8-11, 11-14, and 14-18 years, respectively. The current curricular The framework and pedagogical for school education divide the education system into Three parts: NEP (2020)

- Foundational Stage
- Preparatory
- Middle Stage
- Secondary Stage

NATIONAL CURRICULUM AND PEDAGOGICAL FRAMEWORK FOR EARLY CHILDHOOD CARE AND FOUNDATION

The National Curricular and Pedagogical Framework for Early Childhood Care and Education in NEP 2020 aims to lay down a foundation for children's education, ensuring an all-round development, and preparing them for the future learning and experiences. Kumar (2021)

Developing a curriculum framework:

NMFLM plans to develop a comprehensive curriculum framework that focuses specifically on Curriculum and Pedagogical Development in Elementary Education in India under NEP 2020 International Journal of Research - GRANTHAALAYAH 82foundational literacy and numeracy. The curriculum plans to focus on numeracy and foundational learning from an early age by emphasising aspects such as speaking, reading, writing, counting, arithmetic, and mathematical learning. This approach is to occur from preparatory through school to ensure that students develop the necessary foundation middle skills. This framework will provide guidelines for teachers to teach these skills effectively. To ensure that all students are school-ready, the policy introduces an interim 3-month play-based 'school preparation module' for all Grade 1 students. This curriculum consists activities and workbooks which will focus its learning around alphabets, words, colours, shapes, and numbers. This curriculum will be developed by NCERT and SCERT. Kumar(2022)

Strengthening teacher capacity:

The mission emphasizes the importance of well-trained and proficient teachers. It proposes the development of specialized training programs and resources for teachers, with a focus on foundational literacy and numeracy. This will ensure that teachers have the necessary skills and knowledge to support children's learning. The policy will also focus on Pupil Teacher Ratio (PTR) of 30:1 at each school level and a PTR of 25:1 for socially disadvantaged students to ensure that students gets enough attention during their learning phase.

Formative assessment and remediation:

The mission recognizes the importance of continuous monitoring and assessment of children's progress. It promotes the use of formative assessments to identify learning gaps and provide timely remedial support to students. Murakidharan et al. (2022)

Community and parental involvement:

The mission emphasizes the role of parents and the community in supporting children's learning. It encourages the active participation of parents and community members in promoting foundational literacy and numeracy skills. Pal & Bhutani (2021)

Leveraging technology and digital resources:

The mission acknowledges the potential of technology in enhancing teaching and learning. It proposes the use of digital resources and technology-based interventions to improve foundational literacy and numeracy. Praveen & Abhishek (2024)

NATIONAL INITIATIVE FOR PROFICIENCY IN READING WITH UNDERSTANDING AND NUMERACY (NIPUN BHARAT)

NIPUN Bharat is an initiative under NEP 2020. It aims to improve the foundational skills of children in reading, writing, and numeracy from grades 1-3. Under NIPUN Bharat, the Government of India aims to achieve universal foundational literacy and numeracy by 2025. The initiative under NIPUN Bharat recognizes that literacy and numerical skills are crucial for a child's future growth and development. NIPUN Bharat aims to focus on early identification and intervention for students who are lagging in foundational skills. It aims to strengthen both the learning and the teaching process by providing teachers with proper training, classroom resources, and assessment tools. Rani (2022)

DIGITAL INFRASTRUCTURE FOR KNOWLEDGE SHARING (DIKSHA)

Digital Infrastructure for Knowledge Sharing (DIKSHA) is an online learning platform launched by the Ministry of Human Resource Development. DIKSHA is an initiative under the NEP 2020. It aims to provide students and teachers with access to high-quality educational resources in multiple languages, on various subjects, and for different grade levels. DIKSHA offers digital textbooks, videos, audios, interactive modules, lesson plans, and other resources to help support learning and teaching. DIKSHA under NEP 2020 has been further enhanced to align with the vision of transforming the educational system in India. It follows a holistic approach in the development of skills and experimental learning. DIKSHA aims to bridge the digital divide by ensuring equal access to quality education for all students across the country, including those in remote and underserved areas. Santoshi (2021)

OVERVIEW OF NEP 2020

Tungoe, C. (2024)

1.1 NEED SIGNIFICANCE & JUSTIFICATION OF THE STUDY

Policy Implementation: The NEP 2020 introduces significant reforms in the education system, and the effective implementation of these reforms depends on the awareness and understanding of teachers. Assessing the awareness level of teachers in Kanpur will provide insights into their preparedness, knowledge gaps, and potential challenges in translating the policy objectives into classroom practices.

Teacher Professional Development: Understanding the awareness level of teachers regarding the NEP 2020 can help identify the specific areas where they require further training and professional development. The findings of the study can guide policymakers, educational institutions, and teacher training organizations in designing targeted programs and resources to enhance teachers' knowledge and skills related to the policy.

Identifying Gaps and Misconceptions: The study can reveal any misconceptions or gaps in teachers' understanding of the NEP 2020. Identifying these gaps is crucial for addressing misconceptions, clarifying doubts, and providing accurate information about the policy. This can prevent the implementation of the policy from being hindered by misinformation or incomplete understanding.

1.2 RATIONAL AT THE STUDY

This study is appropriate and relevant as it clearly defines the scope, subject, and target group of the research. It focuses on assessing the level of awareness of the National Education Policy 2020, a significant and timely reform in the Indian education system, among a crucial stakeholder group—primary school teachers. By specifying "Kanpur City," the title sets a clear geographical boundary, making the study more focused and manageable. As teachers play a key role in implementing educational policies at the grassroots level, understanding their awareness is essential for evaluating the potential success of NEP 2020.

1.3 STATEMENT OF THE PROBLEM

A Study of the Awareness of NEP 2020 among Primary School Teachers of Kanpur City

1.4 OBJECTIVES

1. To develop an awareness tool on NEP 2020 awareness.
2. To compare the mean score of awareness of NEP 2020 of Government and private school teachers.

2.1 To compare the mean scores of awareness of NEP 2020 among the male and female teachers teaching in Government and private schools.

1.5 HYPOTHESES

H01. There is no significant difference between the mean scores of NEP awareness of Government and private school teachers.

H02. There is no significant difference between the mean scores of awareness of NEP 2020 among the male and female teachers teaching in Government and private schools.

1.6 OPERATIONAL DEFINITION OF THE KEY TERMS

- **AWARENESS OF NEP 2020-**

In the current study, awareness indicates the items that were given to test the basic knowledge did

- **PRIVATE SCHOOL-**

A private primary school in Kanpur that teaches classes 1 to 5 would indeed be considered a primary-level school.

- **GOVERNMENT SCHOOL-**

Government primary schools in Kanpur city, and throughout India, that teach classes 1 to 5 are indeed considered the primary level of education.

1.7 DELIMITATIONS OF THE STUDY

The present study has a very wide scope for research purpose but due to the lack of time and resources, researcher restricted it only up to the primary teachers appointed in government & private schools of the district Kanpur only.

2.0 REVIEW OF RELATED LITERATURE-

The NEP 2020 aims to transform India's education system by emphasizing accessibility, equity, quality, affordability, and accountability. It's designed to prepare students for national and global challenges, fostering cognitive skills like critical thinking and problem-solving. The policy envisions a more inclusive and equitable system rooted in Indian traditions and values, aiming to create a knowledge society.

NEP 2020 advocates a wide range of policy reforms to promote India as a 'global study destination' by attaining the highest global standards in the quality of Indian higher education. For the first time, the newly formulated policy explores a new horizon, i.e. internationalization of higher education in India.

NATIONAL STATUS-

Shekhar, S.J. (2020), conducted a study of NEP 2019 features of nep and role of teachers using the survey method to find the role of teachers in the NEP 2020 and found that the students and teachers' interaction is very significant in the new education era.

Kumari, S. (2020) conducted a study NEP 2020 and teachers' education transforming teachers' training programs using the quality survey method to find the successful transformation of teacher training programs and found that

Chandvekar, S.D., Rakhe, S.R. & Bhosle, K.D. (2023) Conducted the study quantitative analysis on awareness about NEP 2020 policy in first-year students using the survey method to find the level of awareness of NEP 2020 primary data was collected by using an extractor question and found that more than 50% students are aware about NEP 2020.

Ali, N. & Shafeeq, N.Y. (2024) conducted a comparative study of awareness about nep 2020 among government private secondary school teachers using the quantitative survey method to find the complaint the awareness level of secondary school teachers and using the self constructed tool they are found that just 14% secondary school teachers had a lower degree of awareness and 10% have high level of awareness and 76% have moderate level of awareness.

Alam, A. (2021) conducted the study of awareness on national education policy 2020 among the high school teachers in Darbhanga district using the quantitative survey method to find out the significance difference among high school teachers on awareness of an NEP 2020 and found that mail high school teachers have more awareness then female teachers.

Pandey, S. & Kumar, BK. (2023) conducted study about awareness of NEP 2020 among novice secondary school teachers using the quantitative survey method for data collection by self made question year to find the level of awareness of NEP 2020 among teachers and found that novice teachers are average to mostly aware about the NEP 2020.

Saraswathy, S. & Nagavalli, T. (2023) conducted the study of awareness of teachers and college students on national education policy 2020 using the quantitative server method to find the level of awareness of teachers and college students on NEP 2020 and found that the level of awareness of teachers and college students on NEP 2020 is moderate.

RESEARCH GAP

Researcher national research review about awareness of NEP 2020 on ERIC, google scholar and NCERT and found that in research done till now I am not able to find any other research in kanpur like my title on the awareness of teachers teaching at primary level.

So researcher choose this title and this research will help to find out the awareness of NEP 2020 of Government and private school teachers teaching in kanpur.

3.0 RESEARCH METHODOLOGY-

3.1 APPROACH OF RESEARCH

The research approach for a **quantitative approach** on awareness about the National Education Policy (NEP) 2020 among primary school teachers.

3.2 TYPE OF RESEARCH

The investigator adopted the **descriptive research** for the collection of data on the population for studying the national education policy awareness among primary school teachers in Kanpur city.

3.3 METHOD OF RESEARCH

In this study, researcher will be use the **survey method** through which researcher will check the awareness of teachers teaching at the primary level on NEP 2020.

3.4 SAMPLE AND SAMPLING PROCEDURE

The sample is selected through **stratified a random sampling technique** and consists of 200 teachers of primary school, comprising 100 teachers from the Government and 100 teachers from private schools, and 50 male and female teachers from the Government and 50 male and female teachers from private schools.

Figure No. 3.4: Distribution of sample

3.5 TOOL FOR DATA COLLECTION

In this study self-constructed questionnaire will be used for collecting data.

3.6 ANALYSIS AND INTERPRETATION

An appropriate statistical technique (Mean, Standard deviation, and T-Test) will be used for this study.

4.0 PROBABLE CHAPTERIZATION OF THE STUDY-

S.NO.	CONTENT
CHAPTER-1	INTRODUCTION
CHAPTER-2	LITERATURE REVIEW
CHAPTER-3	RESEARCH METHODOLOGY
CHAPTER-4	DATA ANALYSIS AND INTERPRETATION
CHAPTER-5	CONCLUSION AND RECOMMENDATIONS
